

*Season's Greeting from
Lisa Anderson*

I wanted to take this opportunity to wish my clients, colleagues, family and friends a happy and healthy holiday season!

Although I'm sure this would be WAY too many calories, it looks amazing.....and cheerful!

Like this hot chocolate, I hope your holiday is cheerful and filled with family and friends. I am on the flight to AZ to see my mom and relatives for Christmas as we speak. As always, we have a bunch of errands to do as well. My aunts seem to have a list as well, and my nephew and I are scheduled to volunteer at a food for the homeless shelter so I don't think there will too much rest involved.

Thank YOU for another successful year. You are core to our success. Thanks to my APICS-IE Board of Directors for another great year!

And thanks to my ProVisors ONT group of top-notch trusted advisors....

I'm fortunate to have many wonderful people surrounding me (from top left in order) - my Harvey Mudd executive roundtable, Univeristy of LaVerne Executive Board / CEO Summit (which includes a photo of my fabulous assistant Pam and the dean, Abe), MCIE executive committee, my global consulting strategy group, my student case competition co-leader and someone who is very integral to my success, Ellen Kane and my two best friends, Sandi & Vicki.

The bottom line: I appreciate my clients, colleagues, family and friends!

I look forward to more exciting opportunities, dramatic client results and, most importantly, enjoying more interactions with all of you!

Turning to the New Year, I plan to write a new book on the Coming Power of Manufacturing (with a chapter dedicated to my previous work-in-process book the Amazon Effect) as I'm excited about the vast opportunity for manufacturers and supply chain organizations....

Since I just landed in Phoenix, I am heading off to my mom's and so I imagine I'll be sucked into the vortex of whatever needs to be cleaned and prepared for the holidays so I'll sign off.

Have a happy, healthy & prosperous 2018!

Happy Holidays,

Lisa Anderson
