FEATURING:

Lisa Anderson

Founder & President, LMA Consulting Group Inc

Amazon has turned the business landscape on its head. Netflix has transformed the entertainment industry. Uber has revolutionized the transportation industry. Aerospace firms are feeling the squeeze. Are you ready for what’s next?

According to LMA Consulting Group’s research study, *The Amazon Effect: How Higher Customer Service Standards Impact Your Business and What You Can Do to Thrive*, customers are no longer satisfied with quality products delivered on-time; instead, they want rapid delivery, “go the extra mile” partnership type service and collaborative R&D/ design. Creating a resilient end-to-end supply chain is no longer a differentiator; it has become a “must” for navigating disruption and achieving peak performance.

This presentation will feature an interactive discussion on strategies and methods for creating a resilient supply chain. In addition, instead of reacting to disruption, we’ll explore ideas to turn that on its head – why not become the disruptor?

Hosted by

Scott W. Luton, CSCP, LSSGB

Founder & Host, Supply Chain Now Radio
